

**Proposed Low- Scale Residential**

Proposed **Low-scale Residential** areas support housing types including detached houses, duplexes, triplexes, cottage housing, and in some cases fourplexes and small multifamily buildings. New housing is built at the general scale (size, width and height) of detached houses with yards similar to existing neighborhoods.

**Proposed Mid-Scale Residential**

Proposed **Mid-scale Residential** areas support the same housing types as Low-scale Residential areas, along with moderate sized multifamily housing. Housing is generally up to 3 stories tall, with 4 stories allowed along corridors. Mid-scale areas are generally close to shopping, transit and other urban activities, and provide a transition between dense centers and nearby Low-scale areas.

**Mixed Use Corridor**
